PROFILE

Executive leader in global events and experiential marketing with 20+ years of setting strategy, building organisations and owning results. I founded and led **Sphere Events** to a **140-person, USD 8M+ business** serving Siemens, Porsche, Cartier, Ericsson and Emaar, and created its own festival franchises. I then spent **eight years in the C-suite at Withlocals** as Chief Growth Officer and Chief Community Officer, leading growth strategy across 300+ cities, the B2B partnership business and a company-wide pivot. Today I advise global brands on event portfolio strategy and investment, and I have led delivery for **three consecutive COP summits**.

I lead at the level of portfolio and organisation: deciding which experiences deserve investment and what each must achieve for the business, then building the team, agency model and budget discipline to deliver them consistently across markets. I work closely with CEOs, investors and senior stakeholders, and I take established teams through change. AI is part of how I work every day, including two products I have designed and shipped through AI coding agents.
